# TERMS.

In placing before you this New Catalogue we must ask you to kindly take note of the following:

**Accounts** opened only if satisfactory references are received.

**Terms:**  $2\frac{1}{2}\%$  discount allowed if payments are made within 30 days from date of invoice, otherwise, accounts are drawn for net **at three months from date of Invoice.**

**Prices:** Prices are quoted for quantities only, but for convenience sake we have priced most of the articles per piece.

**Claims** for damages or errors in delivery should be made on the carriers, as all goods leave our factory **carefully packed** and signed for as in good condition. Any inaccuracy should be notified to us **within seven days** after arrival of goods, as claims afterwards cannot be recognized.

**Returns:** All goods are checked prior to being packed, we therefore cannot accept Returns under ordinary circumstances; if however, the receiver believes that a mistake has been made on our side, or if there is any other reason for returning goods, it is necessary under all circumstances to correspond about this and come to an arrangement with us before returning such goods.

**Orders:** It is necessary with every order to quote the number and bye numbers, and in order to prevent errors the name of all required articles should be exactly stated.

**Delivery:** We keep a large stock of all lines so as to send goods off at once in most cases, **but it is very advisable to place Season Orders as early as ever possible** as we have to execute all orders in rotation.

**Electros:** Electros can be supplied for every line; these will be charged for at cost, and the full value will be refunded as soon as we receive the Electros back.

**Goods:** Goods supplied to the Trade only, no Catalogues are sent to private persons.

*When we first started the manufacture of Magic Lanterns we made it a special point to use but the*

*very best Optic.*

*Owing to this principle which we have adhered to, even in the manufacture of our cheapest Lanterns our goods are to-day everywhere appreciated and well known all over the market*

*By continual endeavours we have succeeded, that no Lantern of ours leaves the factory without being perfectly tested as to its correct optic, and the pictures produced are therefore*

*distinct, clear and sufficiently large*

*The selection Cinematographs which we offer to-day to our customers has been considerably increased by adding to same a series of new, cheaper lines, which are at the same time well finished and guaranteed to work properly.*

*As regards the more expensive Cinematographs we beg to draw your attention to a special advantage viz.,*

*noiseless working*

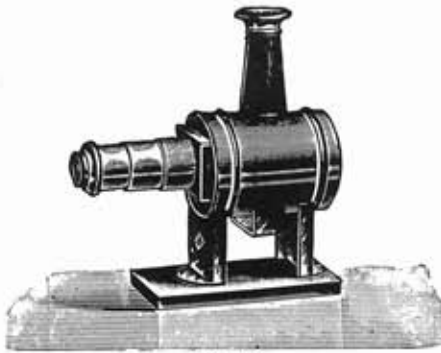

*combined with excellent re-production of Living Pictures.*

*Our selection of Magic Lantern Slides has also again been enlarged, and your special attention is drawn to the sets of artistic pictures which were sketched and painted by a well known Artist.*

*The section Stereoscopes has also been supplemented through a number of new Patterns, the finish of which is in every respect reliable and elegant, the greatest care being taken also regarding the Optic of these lines.*

# The latest Globe Magic Lantern "Bosco"

"Improved Climax System"

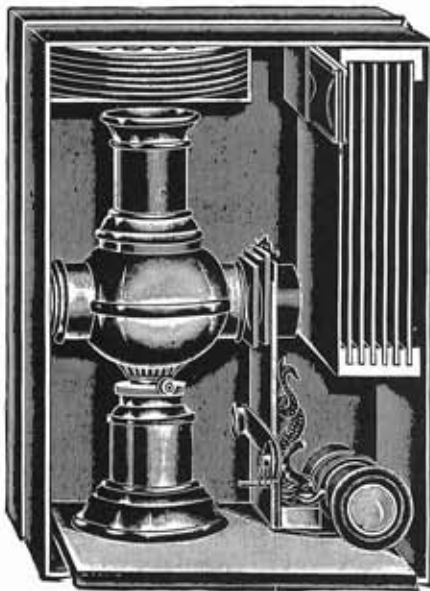

This lantern is made entirely from polished brass, and is fitted with a new mechanical disc turner, and practical arrangement for long slides. Mounted on polished wood board.

The convenient form of this new lantern, and the extremely efficient construction of our lenses, to give large and bright projections, will at all times procure a favourable reception for the "Bosco"

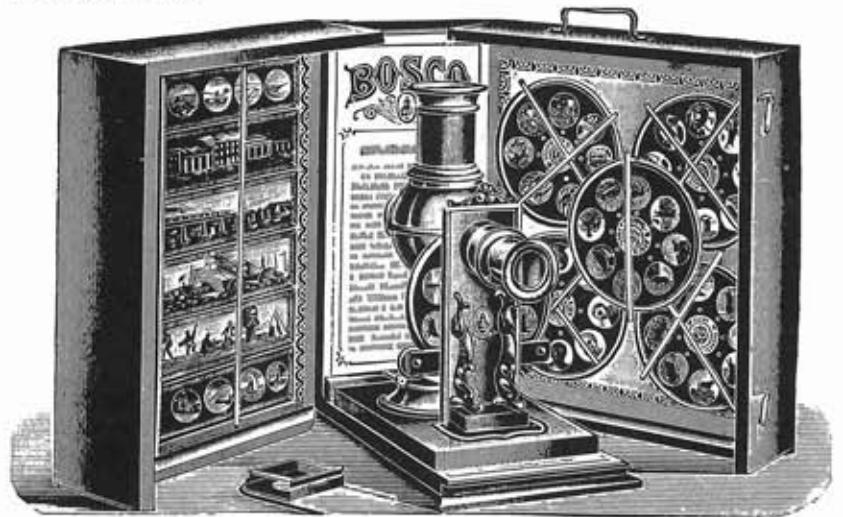

1450 and 1460

These improvements which we offer are of great importance and show up our "Bosco" very advantageously from the different "Climax" systems. The mechanical turner secures an even and easy movement for the discs, while the picture slot, for the long slides, is so arranged that it can be adjusted before the lense opening by a very slight pressure.

Packing for 1450 "Bosco"

Packing for 1460 „Bosco"

Packed in extra strong card-board boxes, with 6 glass Slides, and 6 Discs.

# Glass Slides for Magic Lanterns.

When ordering extra Glass slides or pictures in tin or wood frames to any Lantern or Apparatus kindly note:

The line numbers of the Glas slides and pictures in tin frames correspond to the line numbers of all Magic Lanterns. For instance all glass slides size 5 will fit the Lanterns size 5 etc.

On the other hand the pictures in wood frames do not correspond with the line numbers of the Lanterns, and when ordering such pictures in wood frames it is necessary to give the exact size of such wood pictures as are given with the Lanterns.

*All the following Lantern Slides (with the exception of the photographic series) we deliver also*

*— as Gelatine Pictures —*

*and we shall be pleased to forward our special price list on application.*

## Long Glass Slides

# Moving Pictures in Wood and Tin Frames.

It is important when ordering pictures in wood frames, to remember that they differ from the widths of the Lanterns, you are therefore requested, with every order to give the width of such pictures in wood frames, as are enclosed with the Lanterns.

7021 Reading Lamp, very practical.

## 7021 Reading Lamp.

By using this reading lamp, the entertainer is enabled to read his text without at all interfering with the reflections of the pictures, as owing to the adjustable shutter the light shines only on the text.

Finely japanned, with petroleum lamp with flat burner, and shutter.

10<sup>1</sup>/<sub>2</sub> in. high . . . . . each 4/—

The image displays four views of a mechanical device, possibly a lamp or light fixture, arranged horizontally. From left to right: 1. A side view showing a dark, curved housing with two circular lenses and a small, rectangular, hinged component attached to the side. 2. A front view showing the same housing with two square lenses and a small, teardrop-shaped component hanging from the bottom. 3. A top-down view showing the housing with two square lenses and a small, teardrop-shaped component hanging from the bottom. 4. A side view showing the housing with two square lenses and a small, teardrop-shaped component hanging from the bottom. The device is mounted on a metal frame with various brackets and a small, rectangular component at the top.
