(Telephone 8070 Madison)

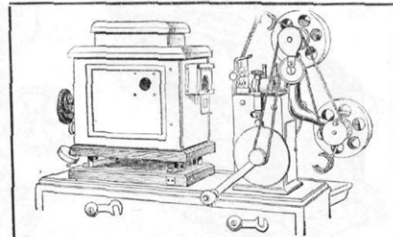

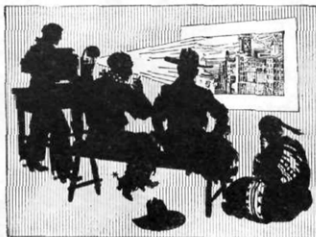

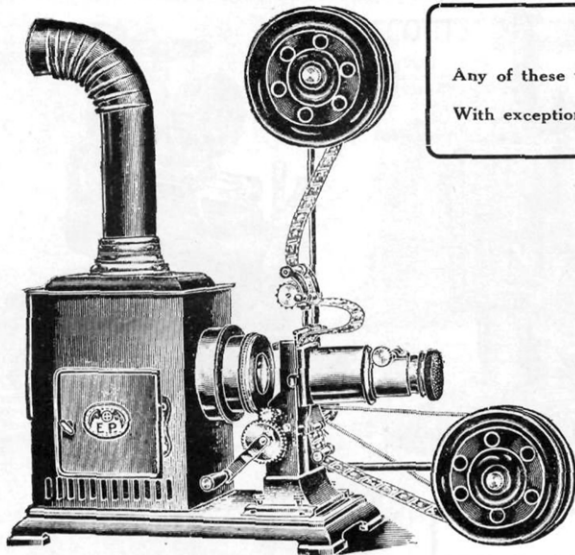

44th ANNUAL  
CHRISTMAS EXHIBITION

1913

## MOVING PICTURE MACHINES

Any of these will take the regular Edison Film and can readily be converted into an ordinary Magic Lantern.

With exception of No. 785 each apparatus is furnished with an oil lamp or attachment for electric lamp. In ordering please state which is wanted.

### THE EDISON HOME KINETOSCOPE

is neither a toy nor a delicate and complicated mechanism, but a machine that combines simplicity, safety and effectiveness. Can be operated by people who are not scientifically or mechanically trained. It compares favorably in design, material, workmanship and finish with the professional types of Edison Projecting Kinetoscopes that are used in theatres and other public places. Uses a special film, much less expensive than the regular.

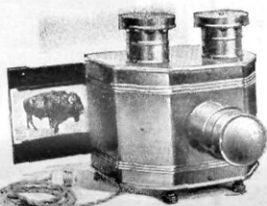

With electric lighting for direct current ..... \$75.00  
For alternating current ..... 86.00

- No. 785. Plain model, with 6 slides and 3 short colored films, with oil lamp. \$ 3.00  
Electric attachment \$1.00 extra.
- No. 786/2. Larger, with 12 slides and 6 short colored films. 5.50  
No. 791/P. Finer lenses, with 12 slides and 6 photo films. 12.00  
No. 792/P. Heavier construction, with take-up device, 12 slides, 6 photo films 18.00  
No. 793/P. Very fine machine, large film holder, take-up device, 6 photo films and 12 slides, similar to cut. 26.50

Send for pamphlet for further particulars.

No. 401

No. 411

No. 413

No. 441

- No. 401, with 2 incandescent electric lamps, finished by lithography in red, gold, black and white. Has 3 in. double convex lens, height 11 inches. Price.....\$3.00
- No. 411, with two electric lamps, double lenses, parabolic reflectors 10 1/4 inches high. 6.00
- No. 413. Same as No. 411, but with gas lamps instead of electric. 6.00
- No. 421. A good machine at low price. Superior lenses and reflectors, 2 electric lamps; improved picture holder in back, avoiding delay in changing subjects. Height 11 1/2 in. 9.00

### NEW STYLES RADIOPTICANS GREATLY IMPROVED

Commonly called Post Card Projectors, they will project enlarged pictures of not only postal cards but any kind of an opaque picture which will fit in the back of the Lantern. The operation being most simple, too, these Lanterns will provide unbounded entertainment and amusement, especially during the long winter evenings.

Prices range according to size, quality of lenses and general equipment.

Larger and highly finished Radiopticans, possessing all the latest improvements, using electric arc lights, \$32.50 to \$46.00. Further particulars given on application.

White opaque screens, 4x4 feet. ....\$3.00 5x5 feet. ....\$4.00 6x6 feet. ....\$6.00

- No. 431. Illumination is double that of No. 421, and superior in every way; for electric light.....\$12.00
- No. 441. Similar to No. 431, but produces still larger and sharper images on screen. 4 in. lenses with rack and pinion movement. 13 1/2 in. high. 17.50
- No. 451. Larger and more powerful than No. 441. For electric light.....27.50
