KEYSTONE! A CAMERA AND PROJECTOR

Sensation! For \$19.00

◆ TAKE AND SHOW YOUR OWN MOVIES ◆

MODEL "C" CAMERA

\$12.50

Haven't you often wished to own a movie camera that will take clear moving pictures at just—

Baby Snorter	Farmers Sport Champions
Sister	Whispering Pines
On a	Love Trip
Mother	Friends Playing
Home	Camp Incident

and personally record other interesting happenings at your home. Wouldn't you like to show a picture of the baby three months from now?

You can easily do it with a Keystone Camera that you can own for \$12.50. All of these films may be shown in your own home on the famous Keystone Kioscope Projector Model No. E-32 at \$6.50.

This remarkable Camera has a very fine Universal lens, adjustable to different light conditions. The bellows showing the remainder of the undeveloped film, precise mechanism, simple to understand, simple to load, easy to carry, place on tripod, and guaranteed to take clear pictures under normal conditions. Size of Camera is 2 1/4 in. x 3 in. x 4 in. with 1 in. lens extension.

This Camera will use one regular 16mm Kodak Reel made by the Eastman Kodak Co., Agfa-Anson Corp., or Duport, and may be purchased at any top class camera store.

MODEL "A" CAMERA

Similar to the Camera shown above, but with many added features. Hot Spring Mirror, made of specially treated high grade spring steel. Winds very easily, similar to winding a clock. About 24 feet of film can be taken with each winding. High Power Lens, 1 1/2 in. diameter lens with adjustable diaphragm, permitting clear, true to life pictures. Price \$35.00
