# PATHÉSCOPE ACE 9.5 mm PROJECTOR

For 30ft. and 60ft. Reels

"Lights out," said Dad, and out they went, leaving a bright silvery beam cutting through the darkness. The children held their breath with excitement, then Dad began to turn—a soft, whirring hum—and then "Mickey Mouse"! The room was a bedlam of jolly noises. Dad could hardly turn for laughing. It was a grand programme. After Mickey Mouse came thrilling dramas, Wild West adventures and Charlie Chaplin. "I thought it was only a toy," said Mother, "but it's wonderful, and I'm glad the films are non-inflammable."

and now you can have "Talkies" too!
