

MINICINE PROJECTOR

Millions of children know and love the MiniCine Projector as an inexhaustible source of everlasting fun, entertainment and instruction. Any child can operate it entirely unaided. The MiniCine Projector is a practically unbreakable precision instrument, scientifically devised to show both MOVIES and STILLS.

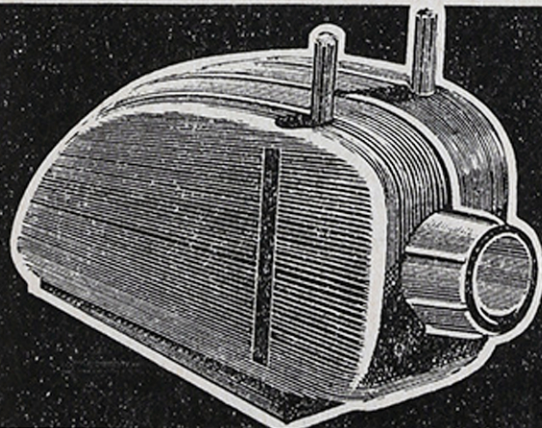

MINICINE VIEWER

A small, pocket-size and beautifully designed instrument in gay colours which will keep youngsters interested and amused, in or out-of-doors, for hours on end. Specially devised for MiniCine films, it shows both MOVIES and STILLS.

DISNEYLAND MOVIE

An inexpensive instrument built on the same lines as the MiniCine Projector, for which a most popular series of Disney character films in colour is available. The Disneyland Movie also takes all the other MiniCine films. This new projector will find its way into every home where there are "picture-minded" children.

EAGLE PROJECTOR

The ideal instrument for teenagers, built for home use and for small classrooms. The EAGLE Projector is devised for EAGLE films which reproduce in colour the most popular strips in EAGLE, Britain's great National weekly.

THE ABOVE 4 INSTRUMENTS WORK WITH MINICINE FILMS. 120 MINICINE ANIMATED AND STILL FILMS ARE AVAILABLE AT PRESENT IN FULL COLOUR AS WELL AS IN BLACK-AND-WHITE. AT LEAST 2 NEW ISSUES EVERY MONTH.
