VACATION COLOR SLIDES

★ VACATION COLOR SLIDES ★

*You now have an excellent viewer---  
the finest obtainable in its price range.*

Through the magic window of its lens you may relive many happy vacation hours, or experience the thrill of visiting far away places. Here is a grand opportunity to fill in shots you may have missed in your travels, see a preview of that trip you are planning, or go on an arm-chair travelogue anywhere in this great land of ours.

For any of these delightful purposes we highly recommend "Vacation Color Slides". They offer:

1. Superb photography of all major scenic and vacation areas in the country -- over 1000 views, by Howard W. Butts, three times winner of a top award from the Academy of Stereoscopic Arts & Sciences in Hollywood.
2. Sets of the ten best slides in the first and second annual world-wide contests sponsored by the Academy of Stereoscopic Arts & Sciences.
3. Ten sets, each with 10 slides, of children's stories and fairy tales, in gorgeous colors, by Paul and Charles Satterfield, top-flight Hollywood artists, who have developed a sensationally effective technique of stereoscopic artistry.

All of the above slides are available in either 35mm 2x2 or 35mm stereo slides. A selection of slides together with any of the fine Guild Viewers, makes a distinctive gift for anyone of any age.

Send 25¢ and the coupon printed on the back of this folder for sample (specify stereo or 2x2) and catalog to:

VACATION COLOR SLIDES

P.O. Box No. 1925  
Hollywood 28, Calif.

THE LENS IN THIS VIEWER IS MADE OF LUCITE PLASTIC, CHOSEN PARTICULARLY FOR ITS PRECISE OPTICAL QUALITY AND VERY HIGH LIGHT TRANSMISSION. WHEN CLEANING THIS LENS, BREATHE ON ITS SURFACE, THEN WIPE LIGHTLY WITH A SMALL BIT OF COTTON.

This viewer is guaranteed to be free from defects in workmanship and material. If any defect appears, at any time, viewer will be repaired or replaced immediately without charge, if returned to us.

**CRAFTSMEN'S GUILD**

This Guild 3-D, with its smart appearance, large, powerful lenses, and smooth focusing lens mount, is by far the **best** low priced stereo viewer on the market!
